**Portfolio:** <https://aaravdev.vercel.app>

### Summary

Frontend-focused Fullstack Developer with 3+ years of experience building scalable React and Node.js applications.

### Education

B.Tech in Computer Science — VIT Vellore (2018–2022)

### Technical Skills

React.js, Next.js, Node.js, Express, MongoDB, PostgreSQL, Python, REST APIs, Tailwind, Docker, Git

### Experience

- **Frontend Developer — TechNova Solutions (2022–Present)**
  - Developed reusable UI components using React and Tailwind, improving development speed by 30%.
  - Integrated Stripe payment APIs and optimized frontend performance using lazy loading and memoization.
  - Collaborated with backend team to design RESTful APIs.

### Projects

- **E-commerce Platform (MERN Stack)**
  - Built a scalable online shopping platform with authentication, product filtering, cart management, and payment gateway integration. Implemented admin dashboard for inventory control.
- **Real-time Chat Application**
  - Developed a WebSocket-based chat app using Socket.io with real-time messaging, group chats, and JWT authentication.

### Awards & Certifications

- AWS Cloud Practitioner
- Google UX Design Certificate

### Hobbies

Open-source contributions, chess

## **Sophia Williams**

**Email:** sophia.w.dev@gmail.com

**Phone:** +1 415-555-7812

**LinkedIn:** <https://linkedin.com/in/sophiawdev>

**GitHub:** <https://github.com/sophiaw>

### **Summary**

Creative Frontend Developer specializing in UI/UX and scalable SPA development.

### **Education**

B.Sc. Computer Science — University of Texas (2017–2021)

### **Technical Skills**

React, TypeScript, Redux, HTML5, CSS3, GraphQL, Firebase, Python, Flask

### **Experience**

- **Frontend Engineer — BrightLabs (2021–Present)**
  - Led migration of legacy Angular app to React with TypeScript.
  - Designed analytics dashboard using Chart.js and GraphQL APIs.
  - Improved user engagement by optimizing UI/UX workflows.

### **Projects**

- **AI Blog Generator (React + Flask)**
  - Built an AI-powered content generation tool integrating OpenAI APIs with a Flask backend and React frontend.
- **Portfolio CMS (Firebase)**
  - Developed a dynamic portfolio content management system with real-time updates and authentication via Firebase.

### **Awards**

- Meta Frontend Certification
- Hackathon Winner – CodeSprint 2023

### **Extra-Curricular**

Tech blogging, UI design workshops

## **Rohan Iyer**

Email: rohan.iyer.dev@gmail.com

Phone: +91 99887 66554

LinkedIn: linkedin.com/in/rohany

GitHub: github.com/rohany

## **Summary**

Fullstack Developer experienced in microservices and cloud deployment.

## **Education**

M.Tech Software Engineering — BITS Pilani (2019–2021)

## **Skills**

Next.js, Node.js, Django, PostgreSQL, AWS, Docker, CI/CD, React Native

## **Experience**

- **Software Engineer — CloudWare (2021–Present)**
  - Designed microservices-based backend using Django and PostgreSQL.
  - Implemented CI/CD pipelines using GitHub Actions and Docker.
  - Reduced API latency by 20% through query optimization.

## **Projects**

- **Loan Eligibility System**
  - Built a web app that predicts loan eligibility using ML models integrated into a Django REST API.
- **Real Estate Listing App**
  - Created property listing platform with search filters, map integration, and secure login.

## **Certifications**

AWS Solutions Architect

## Emily Chen

Email: [emily.chen.dev@gmail.com](mailto:emily.chen.dev@gmail.com)

Phone: +1 312-555-4489

LinkedIn: [linkedin.com/in/emilychendev](https://linkedin.com/in/emilychendev)

Portfolio: [emilychen.dev](https://emilychen.dev)

## Summary

Frontend Developer focused on responsive design and accessibility.

## Education

B.Sc Information Systems — NYU (2016–2020)

## Skills

React, Vue.js, TypeScript, SCSS, Figma, Node.js, Express

## Experience

- **UI Developer — FinEdge (2020–Present)**
  - Built accessible fintech dashboard following WCAG standards.
  - Developed reusable design system components in React.
  - Improved performance metrics and reduced bundle size.

## Projects

- **Crypto Tracker**
  - Developed real-time cryptocurrency tracker using public APIs and WebSockets with responsive design.
- **Task Manager Application**
  - Created productivity web app with drag-and-drop functionality and Firebase backend.

## Awards

Accessibility Design Award 2022

## **Kabir Sharma**

Email: kabir.sharma.dev@gmail.com

Phone: +91 91234 44556

GitHub: github.com/kabirsharma

### **Summary**

MERN Stack Developer passionate about scalable web apps.

### **Education**

B.Tech IT — Manipal University (2018–2022)

### **Skills**

MongoDB, Express, React, Node.js, Python, FastAPI, TailwindCSS

### **Experience**

- **Fullstack Developer — StartupHub (2022–Present)**
  - Built admin dashboards using MERN stack.
  - Implemented secure JWT authentication and role-based access control.
  - Deployed applications on AWS EC2 with Docker.

### **Projects**

- **Food Delivery Web Application**
  - Developed complete ordering system including cart, payment gateway, order tracking, and admin controls.
- **Stock Price Predictor**
  - Built ML-powered stock trend prediction tool using Python and integrated frontend visualization.

### **Certifications**

MongoDB Developer Certificate

## **Lucas Brown**

Email: lucas.b.dev@gmail.com

Phone: +1 646-555-0098

### **Summary**

Frontend Developer specializing in React and performance optimization.

### **Education**

B.Sc CS — UCLA (2017–2021)

### **Skills**

React, Next.js, Redux Toolkit, Node.js, PostgreSQL, Jest

### **Experience**

- **Frontend Engineer — MediaX (2021–Present)**
  - **Developed server-side rendered apps using Next.js.**
  - **Improved SEO and page performance significantly.**
  - **Wrote unit tests using Jest and React Testing Library.**

### **Projects**

- **News Portal**
  - **Built scalable news aggregation platform with category filters and search functionality.**
- **Video Streaming Platform**
  - **Created Netflix-style UI with dynamic content loading and user authentication.**

## **Priya Nair**

Email: priyanair.dev@gmail.com

Phone: +91 90123 55443

### **Summary**

Fullstack Developer with expertise in Python backend and React frontend.

### **Education**

B.Tech CS — SRM University (2019–2023)

### **Skills**

React, Django, Python, PostgreSQL, REST APIs, Docker

### **Experience**

- **Software Developer — DataStack (2023–Present)**
  - Designed REST APIs using Django and PostgreSQL.
  - Built interactive analytics dashboards with React and Chart.js.
  - Containerized applications using Docker.

### **Projects**

- **Analytics Dashboard**
  - Created real-time data visualization dashboard for business metrics using React and REST APIs.
- **Inventory Management System**
  - Developed backend logic and frontend interface for tracking stock, suppliers, and purchase orders.

### **Awards**

Python Excellence Award

## **Daniel Smith**

Email: daniel.smith.dev@gmail.com

Phone: +1 555-432-7765

### **Summary**

Frontend engineer passionate about scalable architecture.

### **Education**

B.Sc Software Engineering — Georgia Tech

### **Skills**

Angular, React, Node.js, GraphQL, MySQL

### **Experience**

- **Frontend Developer — Appify (2020–Present)**
  - Built reusable Angular components and later migrated modules to React.
  - Integrated GraphQL APIs for efficient data fetching.
  - Improved UI responsiveness and cross-browser compatibility.

### **Projects**

- **Event Management System**
  - Developed event booking platform with ticket generation and payment integration.
- **Learning Management System (LMS)**
  - Built LMS portal supporting video lectures, quizzes, and progress tracking.
